MEET OUR PRINCIPAL

Dr. GULISTA KHATOON

In this 'Hype Age' Scientific gadgets are taking over a number of functions of teachers right from the smart phone to smart classes down till Robotics have made the teacher nothing more than a 'five and a half hour' Torch bearer of student. INDIVIDUALISM has taken a backseat; SPEED and TIME is all that matters; 'ETHICAL VALUES' have become a matter of "LIP SERVICE" only; SPIRITUALISM is slowly but surely disintegrating. Teachers are becoming a SLAVE to machines. It is like 'PRESS THE BUTTON' and you've everything in front of you. The time to toil and search for knowledge on your own seems to be over.

In Mother's International Teacher's Training Academy our approach is to prepare good teachers who put their impact on the overall development of the society by creating good citizens.

The Secretary Inks His Thoughts

Message

It gives me an ecstatic and euphoric feeling when I put my pen down on this scape to usher in another new revolution in the field of education.

Bihar is a state of simplicity adjoined with complexity. It is in this backdrop that I have an inaugural message for the budding teachers' who will get their training in this institution. Shakespeare has rightly pointed out in the Merchant of Venice - "It is easier to teach twenty than to be one among the twenty to be taught." This holds true even today.

Teaching is an art as well as a science. It is more of a vocation than a profession. It is an unlimited arena like the horizon which meets yet doesn't meet.

You learn more from the students than they learn from you. There are many in the world who rigidly hold on to the view of education as the '**I, Me and Mine**' concept. Education is not I but We; It is not their it is ours - It is not he or she or it - It is us. When you look at education from the intrinsic point of view - it is the lighting of the Heart, Mind and Souls. Knowledge is good but Wisdom is the best. The narrowest meaning of Education comes into foreplay when a teachers says - "do what I tell you - Do not Do what I don't" This angle has the aroma of 'Pride' and 'Real Teachers' are '**Humble and Exemplary**'. They help children to uncover the secret mysteries of Life and Living. They are the Alfa and the Omega of the society where the negative ideas dominate. It is inspiration that works and perspiration that creates.

I extend my heartiest congratulations to one and all involved directly or indirectly in laying the seedling of this Institution - Which one day will give its fruits not only to the state of Bihar but India and The world at large.

With Best Wishes to all.

Arshad Ahmad
